The Westover will win you over! This spacious home offers 4 bedrooms and 2.5 baths. This plan has become a favorite of many potential homeowners, so much so that we made it one of our model homes! The first floor of this split-level plan keeps the conversation from room to room with its open design featuring the gourmet kitchen, breakfast room, and great room. The primary suite features a private bath and spacious walk-in closet, providing a cozy retreat area to come home to after a long day at work. The upstairs loft space is the perfect spot for a quiet homework space, a reading nook or even an additional great room. One of our favorite features is having the option to move the utility room to the second floor for added convenience! The Westover has everything you need to make your dream home a reality!
